

mini team make up

1. Make Up Base

Apply BB cream or lightweight foundation using a make up sponge or brush. This will help even out skin tone and keep make up looking fresh for longer.

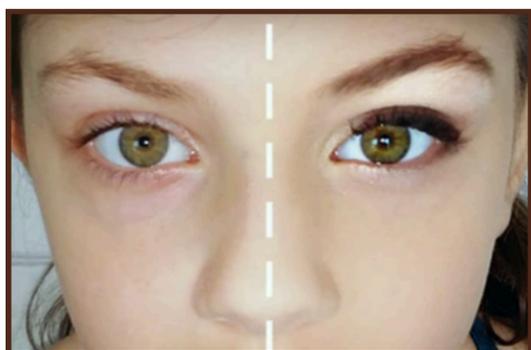

2. Brows

Brush your brows upward and fill in any gaps with a brow pencil or eyeshadow. Defined brows help shape the face.

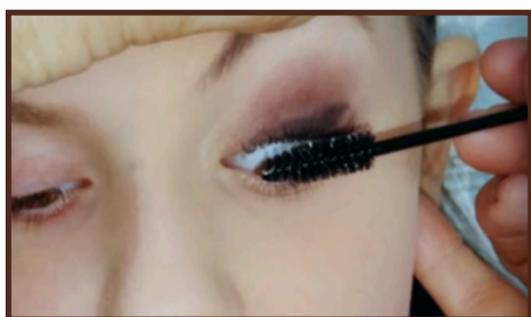

3. Eyeshadow

Start by using a medium brown over the entire lid. Apply dark brown to the outer corner and crease of the eye creating a "C" shape. Use your lightest shade of brown in the inner corner & blend well!

4. Eyeliner

Apply a dark brown eyeliner to the outer corner of the top lash line to help eyes pop. Avoid using eyeliner on the bottom lash line and near the inner eye corner.

5. Mascara

Hold the mascara brush under the dancers eyelashes and have them blink while you sweep the color through the lashes.

6. Blush

Sweep blush on the cheekbone up towards the hairline to add color and life to the face.

7. Lips

Use a lipliner before applying lipstick to outline the lips. This will prevent lipstick from running and will help shape the lips.
